# Virtual Travel Guide

You've won a 3 day trip to the Faroe Islands! But there is a catch. In order to go, you must do all your planning for your itinerary using generative AI (You'll only be able to do the activities you specify on your itinerary). Use a language model of your choice (Bard, ChatGPT, Claude, etc) and create your itinerary for your ideal trip to this tropical paradise. ***Avoid using google or other search engines to gather information.*** Submit your final itinerary and chat logs to the instructor before the start of the next class.

**Requirements**
- You must schedule a flight
- You must schedule daily activities (at minimum 1 activities per day)
- You must find a place to stay
